

# DAMARK

## FS Series Automatic Shrink Packaging Systems

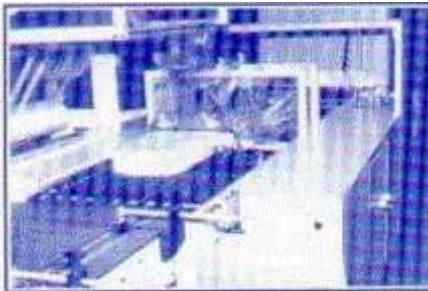

The perfect combination of reliability, versatility and simplicity of use to make the **DAMARK** models FS1 and FS2 series automatic shrink packaging systems the logical choice for the medium to high speed package. The range of sizes means that you can pick the ideal system whether your product is as small as a video or as large as a stack of insulation. The **DAMARK** FS series machines, together with the **DAMARK** Shrink Tunnel, will give you consistent automatic operation with high quality packages and superlative cost savings.

## FS 1 Series

- Available in two seal jaw widths: 14" & 24".
